L172 Worksheet 2 — Handwritten reflection

Information, Entropy and Intelligence

Print this form, write **by hand**, then either scan or photograph clearly and upload as a **separate PDF**, or hand in a paper copy at the start of lecture 4. Do **not** type the reflection.

CRSid	**Date**
_____	_____

Prompt (up to about 300 words; use the lined pages):

- What did the exchange teach you about Shannon's H versus Boltzmann's S?
- What did you learn about the model's way of presenting the equivalence claim?
- How does this relate to lectures 2–3 as you understand them?
- Has your sense of LLMs as tools of inquiry changed since Worksheet 1? Was this approach useful, or did you rely on other techniques?

Upload as `L172_<CRSid>_worksheet2_reflection.pdf` (or hand in a paper copy). Dialogue file is separate: `L172_<CRSid>_worksheet2_dialogue.md`.
